BRASS WORKS

Start Designing your Custom Buckles!

A custom designed edition of buckles begins with a description or rough sketch. Email us any photographs, logos, emblems, patches that you would like incorporated in the design. We will then prepare an artwork proposal for you to review where you will have the opportunity to make changes if necessary. Once artwork is approved a master pattern is prepared so we can cast and make your buckles.

Border Shapes

These are some basic shapes to get you started
